CESVA NOISE MODULE INSTALLATION GUIDE

Revision | July 2024

INSTALLING THE CESVA NOISE MODULE

1. To mount the Cesva noise module on the pole, pass the supplied cable ties through the bracket on the back of the noise module and around the tripod pole at both the top and bottom of the bracket.

INSTALLING THE CESVA NOISE MODULE

2. When plugging in the noise module, make sure you align the notches correctly. This will provide power and communication with the noise module.
